Product Descriptions

Cape Cod Blend Mulch- our own blend made here from local tree species. Medium brown in color. A nice ground cover at an affordable price.

Premium Pine Mulch - aged New England Pine with a rich brown color.

Black Mulch - color enhanced, aged pine, deep black in color.

Hemlock Mix Mulch - large amount of hemlock bark gives it a natural reddish-brown color, enhanced with spruce and fir for aroma.

Screened Loam - 3/4" screened, basic soil used for top dressing existing lawns, starting new lawns, and filling low spots, pH7.

50/50 Blend - a nice compromise for your lawns, trees, shrubs, and flower beds. A blend of the Screened Loam with the Screened Leaf Compost, also called compost loam.

Screened Leaf Compost - rich, dark, leaf compost, screened to 1/2" minus, great for flower and vegetable gardens, planting trees and shrubs, top dressing, or improving poor soils.

Planting Mix - a signature blend of our Screened Leaf Compost with the Earthlife Compost, a nitrogen rich mixture.

Earthlife Compost - a rich bio-solid compost used to amend existing soils, topdress lawns and flower beds for a nutrient boost, or add to soil to create your own planting mix, pH 7.5.

Watts Family Compost - composted food waste, cranberries, manure, leaves and woodwaste. Rave reviews from local organic vegetable growers!

Open Monday - Friday 8:00 am to 4:00 pm
Peak Season Saturdays 8:00 am to Noon
